I-SPAN-BRO-18A

When maintaining the highest level of cleanliness is a priority, I-Span™ PVC Interior Wall & Ceiling Liner System is the clear choice. I-Span™ PVC Interior Wall & Ceiling Liner System is completely sanitary, protecting against all types of infestations, chemical erosions and safeguarding against bacteria perfect for commercial, industrial and agricultural facilities. I-Span™ PVC Interior Wall & Ceiling Liner System can be installed horizontally or vertically on either walls or ceilings.

- Panels are smooth allowing a low adhesion for dirt.
- No exposed fasteners provides a unified look.
- Bright white panels for a clean appearance.
- Outstanding resistance to chemicals and moisture.
- Relatively maintenance free.
- Light weight allows for a fast and easy install.
- Ideal for new construction or remodeling an existing structure.
- State-of-the-art process combined with high quality ingredient ensures superior performance in all types of conditions.
- Economical solution when compared with other wall systems such as ceramic, fiberglass or stainless steel.

I-Span™ PVC Interior Wall & Ceiling Liner System is easy to clean and moisture resistant ideal for use in sanitary and high-abuse areas where durability is key.

- I-Span™ PVC interior wall and ceiling liner system with its special I-construction results in outstanding spanning capability. I-Span™ is available in 16" width and standard 8', 10', 12', 16' lengths.
- Panels are 16" wide featuring our distinct double wall system for added resistance and strength.
- Exceptional durability due to state-of-the-art manufacturing processes.
- Minimum maintenance, never needs painting or surface finishing.
- Meets CFIA (Canada) and FDA (U.S.A.) requirements for walls and ceilings.
- Class A fire rating.
- Limited lifetime warranty.
