COVERAGE. This warranty applies to the original retail purchaser ("Purchaser") of ABTCO vinyl siding, soffit and accessories ("Product(s)") and to any owner ("Owner") of a building on which the Product(s) is originally installed.

A. WARRANTY. We warrant that our Product(s), when applied in residential applications in the United States and Canada (including prefabricated residences located or to be located on a permanent building site) will remain free from manufacturing defects that cause peeling, flaking, rusting, blistering or rotting ("Nonconformities"). IF THE PRODUCT DOES NOT COMPLY WITH THIS LIMITED WARRANTY, OUR LIABILITY IS LIMITED TO THE REPAIR OR REPLACEMENT PROVISIONS SET FORTH IN SECTION 5.

B. Fade Resistance: We also warrant, to the original retail purchaser only, that our siding will resist excessive fading from normal and expected weathering and exposure to exterior elements for 50 years. For the purposes of this warranty, excessive fading is defined as a loss of color, after cleaning with a recommended solution, in excess of a Delta E of 3 color units as measured by an industry standard color measurement device.

C. HAIL DAMAGE. In the event of damage by hail, the Owner should report the damage to his or her homeowner's insurance company to pursue coverage under a homeowner's insurance policy. Proof of claim is required in the event that you are seeking coverage from ABTCO. To the extent Product(s) damaged by hail is not covered by the homeowner's insurance policy, we warrant to the original retail Purchaser only that we will provide replacement material only for the damaged Product(s). The Owner shall be responsible for the payment of all installation, labor, freight costs and for the purchase of any additional siding intended to replace undamaged Product(s).

D. WARRANTY TERM. If the original Purchaser of the Product(s) is an individual, the warranty term will be that original Purchaser's lifetime. If the original Purchaser of the Product(s) is not an individual, the warranty term will be deemed to be 50 years. The warranty period for any Product(s) repaired or replaced under this Warranty shall be equal to the remaining warranty period applicable to any Product(s) originally installed on the residence.

2. WARRANTY TRANSFER

This warranty, except for the hail damage warranty in Section 1C and the Fade Resistance in Section 1B, may be transferred to the subsequent owner of the residence where the Product(s) has been installed if we are notified of change in ownership within ninety (90) days of the change. Failure to notify us of change in ownership shall relieve us of all further obligations hereunder. Upon change in ownership of the residence where the products were originally installed and our receipt of timely notice of change of ownership, the warranty period shall be fixed at fifty (50) years from the date of original installation.

VINYL SIDING INSTITUTE'S IMPORTANT FIRE SAFETY INFORMATION STATEMENT IS AS FOLLOWS: Exterior vinyl building materials require

little maintenance for many years. Nevertheless, common sense dictates that builders and suppliers of vinyl products store handle and install vinyl materials in a manner that avoids damage to the product and/or structure. Owners and Installers should take a few simple steps to protect vinyl building materials from fire.

TO HOME AND BUILDING OWNERS:

Rigid vinyl siding is made from organic materials and will melt or burn when exposed to a significant source of flame or heat. Building owners, occupants and outside maintenance personnel should always take normal precautions to keep sources of fire, such as barbecues, and combustible materials, such as dry leaves, mulch and trash, away from vinyl siding.

TO THE BUILDING TRADES, SPECIFIERS, PROFESSIONALS AND DO-IT-YOURSELF INSTALLERS: When rigid vinyl siding is exposed to significant heat or flame, the vinyl will soften, sag, melt or burn, and may thereby expose material underneath. Care must be exercised prior to installation when selecting underlayment materials because many underlayment materials are made from organic materials. All building materials should be installed in accordance with local, state, and Federal building codes and fire regulations.

CARE AND MAINTENANCE While ABTCO vinyl siding remains virtually maintenance-free, it will become dirty as any other product which is exposed to atmospheric conditions. Normally, your ABTCO vinyl siding can be cleaned satisfactorily through the use of an ordinary garden hose. If stubborn stains cannot be removed with water, the following procedure should be used:

1. Equip the garden hose with a soft-bristled, long handle car brush.
2. Where soil is of a stubborn nature, the following cleaning solution works well: - 1/3 cup household detergent - 2/3 cup trisodium phosphate - 1 gallon water

In certain geographic areas where mildew may be a problem, substitute one quart of 5% sodium hypochloride (household bleach) for one quart water in the above formula. Where the house is extremely dirty, it is recommended that you start washing from the bottom and go to the top, rinsing frequently. Cleaning solutions should be permitted to stand on the surface of the siding for several minutes before rinsing. All questions concerning the meaning or applicability of this limited warranty are to be decided under the law of the State of Oregon without reference to its choice-of-law rules. This Warranty gives you specific legal rights, and you may also have other rights which vary from state to state.
